Installation and Rearrangement of Buzzer System in connection
with office telephones

The construction of a partition in room 349, South Building, will be completed in a few days. At that time will you please make arrangements to have our present inter-office telephone buzzer system (button pads) either rearranged or additional button pads installed.

The system will be as follows:

One 6-button pad is already installed in Room 317. There are available for use or turn-in one 4-button pad and three 2-button pads. At least 3 3-button pads will be required to fulfill the above plan.

Please contact for any information.
